

WIDER FARE DISTRIBUTION ON A SINGLE PLATFORM

AIRCENTRE

AirCentre provides a full suite of published, net and wholesaler airfare content, on one single platform.

For wholesalers, it means a wider distribution of fares, even to non-Sabre agents. For retailers it means a broader and more competitive range of options for your customers.

WHAT'S IN IT FOR YOU

INCREASE REVENUE OPPORTUNITIES by widening your distribution reach to over 20,000 agency locations as well as non-Sabre agents who can assess fares via a web-based B2B portal.

REDUCE TEDIOUS AND OFTEN MANUAL PROCESS of wholesale airfare distribution and fulfillment.

REDUCE FINANCIAL RISKS by managing the credit limit of each retail agent through the Credit Limit Management Tool that automatically checks the credit balance of the ticketing agent before issuing the ticket.

ENJOY GREATER OPERATIONAL EFFICIENCY with the combination of integrated fare search, fare quotation, booking, queue management, ticketing and reporting.

HOW IT WORKS FOR YOU

AirCentre allows wholesalers to reach out to over 20,000 agency locations, allowing you to widen your distribution reach on the wholesale fares you provide. You can even reach out to non-Sabre agents, who can assess fares via a web-based B2B portal. It ensures you're reaching your maximum potential audience with your offering, every single day.

AirCentre lets you set approved credit limits for each retail agent, reducing your financial risk with better control over your retail agents. This frees up your time to fulfil transfer bookings and perform other tasks by eliminating the need to perform manual credit limit checks.

The administrative access level allows you to apply markups, service fees and discounts through mark-up module, giving you better revenue management and flexibility to tailor your offering to individual markets. You can tailor levels of functionality and visibility for each agent in AirCentre such as issuing and voiding a ticket on your behalf. You will also have increased control over the maintenance of exchange rates of alternate currencies for fare quotations.

AirCentre combines the best features from suite of solutions - like integrated fare search, fare quotation, booking, queue management, ticketing and reporting, resulting a better user experience and seamless workflow.

HOW WILL YOU STAND OUT

EMPOWER YOUR RETAIL AGENTS to perform functions like issuing and voiding a ticket on your behalf.

REDUCE FINANCIAL RISK with better control over your retail agents using the capability to set credit limit checks.
