

ANALYSE BUSINESS INTELLIGENCE AND MITIGATE OPERATING RISK.

SABRE TRAVELER SECURITY

Traveler Security is an interactive web application that allows you to quickly locate travelers worldwide using travel reservation data and can drill down from a colour-coded map to traveler counts by specific location and request either a summary or detailed report.

24 detailed usage reports are accessible for analysis to optimise commercial saving, improve Travel Program Management and provide Travel Insights.

WHAT'S IN IT FOR YOU

ENHANCED duty of care in servicing corporate clients and their employees. Reduce risk of exposure as Traveler Security rapidly pinpoints traveler's location with relevant trip details.

ENSURE Travel Policy Compliance with Flight Threshold. It restricts the number of travelers on same flight to minimum risk to loss to company.

DYNAMIC access to travel booking intelligence and report for business review and data analysis.

HOTEL SUMMARY REPORT

HOW IT WORKS FOR YOU

Reduce risk of exposure as Traveler Security rapidly pinpoints traveler's location with relevant trip details. Traveler Security provides real-time access to historical and pre-trip data, and allows the corporate travel agents and the corporations to identify, locate and extract travellers' information on the road.

Access to Business Intelligence for Air, Hotel and Car Bookings. Users may create reports that are ad-hoc or according to a schedule defined. Ad-hoc reports are available for viewing immediately or saved to folders.

Provided with choice of reports in Traveler Security, you have the ability to export the currently viewable data to Microsoft Excel or to a Printer-friendly PDF file. Additionally, you can select from two types of pre-defined reports: Scheduled Reports and Flight Threshold Reports.

HOW WILL YOU STAND OUT

Real-time access to 3 years of historical and 360 days of pre-trip data for the reports generated.

25 dynamic ad-hoc reports available for users' analysis on Travel patterns, Travel expenses, Suppliers cost, policy compliance, etc.

E.G. REPORTS ARE:

- Air Detail Report
- Air Group Opportunity Report
- Hotel Rate summary report
- Airline Trend by Ticket Date, etc.
